WORK EXPERIENCES

Computer Engineer
Delta Software

07/2021 - Present

Using the C # programming language and Wpf technology, I integrated the appropriate modules for the desktop program into the system. I realized a project called smart edu with Nodejs.

Computer Engineer
Arkadyas Software

01/2020 - 07/2021

I created it in Admin and User Panels with ASP.net Technology and Access Database. I designed websites using HTML and Css. I created a blog site with an admin module with Nodejs and MongoDb.

Computer Engineer
Bilge Adam NBUY

07/2019 - 12/2019

I received software development training from Bilge Adam Academy within İŞKUR courses. Through my education, along with C# programming language, such as MVC, C#, LINQ, Layered Architecture I carried out projects related to various projects.

PROJECTS

Smart Edu
- NodeJs ve MongoDb teknolojilerini kullanarak Smart Edu projesini gerçekleştirdim.

Q&A
- With NodeJS and MongoDb I designed a Question and Answer application controlled by the Admin panel.

To Do Project
- I implemented a todo project using multi-layer architecture and Asp.Net Core technology

Moda Blogu
- I created a CodeFirst based fashion platform using ASP.NET MVC technologies.

ShopApp Project
- I implemented a web application using ASP.Net Core Mvc and MSSql

EDUCATION

Computer Engineering
Erciyes University

09/2014 - 06/2019   *Kayseri, Turkey GANO : 2.97/4.00*

Graduation project
- Blood Donation Platform

SKILLS

Problem solving · Brainstorming · Team work · Devotion · Research

TECHNICAL SKILLS

Programming Language
C#, Javascript,NodeJs

Database
SQL Server, MongoDB

Framework
.NET Core, Entity Framework, Web Api

Scripting Languages and Libraries
HTML, CSS, Bootstrap,Linq

Methodologies and Design Patterns
Scrum, OOP, SOLID, MVC, MVVM,Design Pattern, Layered Architecture

Tools
Visual Studio, VS Code, Git, Trello, Postman

CERTIFICATES

Microsoft Exam 480 (12/2019 - Present)
Programming in HTML5 with JavaScript and CSS3
